Brief

YourPropFirm have successfully integrated Sumsub's Know Your Customer (KYC) functionalities into our proprietary trading firm dashboard.

This enhancement introduces several features aimed at streamlining the user verification process and providing administrators with improved control and visibility.

About Sumsub

Sumsub is a global compliance and anti-fraud platform designed to help businesses ensure compliance with various regulatory requirements, such as Anti-Money Laundering (AML), Know Your Customer (KYC), and Know Your Business (KYB).

It provides a range of services including identity verification, document verification, and transaction monitoring.

Features Highlight

- Administrator is able to decide whether Traders need to be verified to trade in a specific program
- Verification methods;
    - Manually: Able to add custom download link Challenge in User Verification Page
    - Automatically using Questionnaire: Managed directly within Sumsub feature inside YourPropFirm dashboard
- Verification List page for administrators to review each verification details & download verification information
- Administrator is able to approve or reject verification directly
- Automatic account creation upon verification approval
- Notification to Traders during verification stage,
- Challenge User Verification Page, enables Trader to complete verification without the need to leave the dashboard
- Real-Time data display upon submission of verification
- Traders are able to view the information submitted previously
